This class will focus on the skills necessary to successfully play in orchestras, whether it is middle school and high school orchestras or youth orchestras like WYSO. Enrollment open by instructor consent to pre-formed ensembles only (each member must enroll for the class separately)

Get a jump on next year's Solo & Ensemble competition by signing up with your existing ensemble, or sign up to play for fun with a friend or sibling! Your ensemble can be brand new and made up of any combination of instruments – Ms. Carol will help you choose music, learn how to work together as a group, and play independent parts.

### **DIY Instruments (\$50)**

Four 30-minute sessions, all students welcome, Mondays

In this fun, hands-on class, students will learn about the science of sound. We'll look at the way various instruments make sound and compare that to other instruments. Then we will have a chance to build our own instruments and even write music for our inventions! Guest taught by Matt Wilber.
